The properties that contribute to SureLock's success on textured surfaces can also contribute to its reduced clarity on clear facestocks. However, clarity will most likely not be a factor when applying this construction to textured surfaces.

| Facestock: 2.0 mil TC Clear Polypropylene | A biaxially-oriented film designed for prime label applications. Its acrylic top coat was specifically engineered for flexo ink receptivity. |  |  |
|---|--|--|--|
|   | Typical Value  |  |  |
| Basis Weight:                             | 31.5 #/3300 ft <sup>2</sup>  |  |  |
| Caliper:                                  | 2.0 mils   |  |  |
| Tensile MD/CD:                            | 30,450 / 24,650 PSI  |  |  |
| Elongation @ Break MD/TD:                 | 80 / 100%  |  |  |
| Gloss:                                    | 90 / N/A%  |  |  |
| Haze:                                     | 2.5%   |  |  |
| Haze:                                     | 2.5%   |  |  |

| Adhesive: SureLock <sup>TM</sup> | A hot melt adhesive exhibiting high tack and appropriate flow to aid in many<br>hard-to-stick textured applications. It converts with less build up on press than<br>many other higher coat weight competitors and also provides a flat release<br>profile for good dispensing. |  |  |
